UNITED STATES DEPARTMENT OF AGRICULTURE

Washington, Oct. 31, 1969

CCC Monthly Sales List for November 1969:

The U. S. Department of Agriculture announced today the minimum prices at which Commodity Credit Corporation (CCC) commodity holdings are available for sale beginning at 3 p.m. (EST), Oct. 31, 1969. These prices, subject to amendment, will continue until superseded by the December Monthly Sales List.

The following commodities are available: cotton (upland and extra long staple), wheat, corn, oats, barley, flaxseed, rye, rice, grain sorghum, soybeans, peanuts, tung oil, cottonseed meal, cottonseed oil, butter, and nonfat dry milk.

Soybeans and soybean meal have been added to the list of commodities eligible for CCC credit.

Grain sorghum sales will be made only on-track port, in-store port or at selected interior terminals, basis delivered port.

Information on the availability of commodities stored in CCC bin sites may be obtained from Agricultural Stabilization and Conservation Service State offices shown at the end of the sales list. For commodities stored at other locations, the information may be attained from ASCS commodity and grain offices also shown at the end of the list.

Corn, oats, barley, or grain sorghum, as determined by CCC, will be sold for unrestricted use for "Dealers' Certificates" issued under the emergency livestock feed program. Grain delivered against such certificates will be sold at the applicable current market price, determined by CCC.

(more)

In the following listing of commodities and sale prices or method of sales, "unrestricted use" applies to sales which permit higher domestic or export use and "export" applies to sales which require export only. CCC reserves the right to determine the class, grade, quality and available quantity of commodities listed for sale.

The CCC Monthly Sales List, which varies from month to month as additional commodities become available or commodities formerly available are dropped, is designed to aid in moving CCC's inventories into domestic or export use through regular commercial channels.

If it becomes necessary during the month to amend this list in any material way -- such as by the removal or addition of a commodity in which there is general interest or by a significant change in price or method of sale -- an announcement of the change will be sent to all persons currently receiving the list by mail from Washington. To be put on this mailing list, address: Director, Grain Division, Agricultural Stabilization and Conservation Service, U. S. Department of Agriculture, Washington, D. C. 20250.

Interest rates per annum under the CCC Export Credit Sales Program (Regulations GSM-4) for November 1969 are 6 3/8 percent for U. S. bank obligations and 7 3/8 percent for foreign bank obligations. Commodities now eligible for financing under the CCC Export Credit Sales Program include barley, bulgur, cattle (beef and dairy breeding), corn, cornmeal, cotton (upland and extra long staple), cottonseed meal, cottonseed oil, dairy products, flaxseed, grain sorghum, lard, linseed oil, oats, raisins, rice (milled and brown), rye, soybeans, soybean meal, soybean oil, tallow, tobacco, wheat, and wheat flour. These commodities are subject to certain area limitations. Commodities purchased from CCC may be financed for export from private stocks under the GSM-4 Regulations.

(more)

Information on the CCC Export Credit Sales Program and on commodities available under Title I, P. L. 480, private trade agreements, and current information on interest rates and other phases of these programs may be obtained from the Office of Assistant Sales Manager, Export Credit, Export Marketing Service, U. S. Department of Agriculture, Washington, D. C. 20250.

The following commodities are currently available for new and existing barter contracts: Upland cotton and tobacco. In addition, private stocks of corn, grain sorghum, barley (other than malting barley), oats, wheat and wheat flour and milled and brown rice, under Announcement PS-1, as amended; cottonseed oil and soybean oil under Announcement PS-2; tobacco under Announcement PS-3; upland and extra long staple cotton under Announcement PS-4; and inedible tallow and grease under Announcement PS-5 are eligible for programming in connection with barter contracts covering procurement for Federal agencies that will reimburse CCC. (However, Hard Red Winter, Hard Red Spring, Durum wheats, and flour produced from these wheats may not be exported under barter through West Coast ports.) Further information on private-stock commodities may be obtained from the Office of the Assistant Sales Manager, Barter, Export Marketing Service, USDA, Washington, D. C. 20250.

The CCC will entertain offers from responsible buyers for the purchase of any commodity on the current list. Offers accepted by CCC will be subject to the terms and conditions prescribed by the Corporation. These terms include payment by cash or irrevocable letter of credit before delivery of the commodity and the conditions require removal of the commodity from CCC stocks within a reasonable period of time. Where sales are for export, proof of exportation is also required, and the buyer is responsible for obtaining any required U. S. Government export permit or license. Purchase from CCC shall not constitute any assurance that any such permit or license will be granted by the issuing authority.

(more)

Applicable announcements containing all terms and conditions of sale will be furnished upon request. For easy reference a number of these announcements are identified by code number in following list. Interested persons are invited to communicate with the Agricultural Stabilization and Conservation Service, USDA, Washington, D. C. 20250, with respect to all commodities or -- for specified commodities -- with the designated ASCS commodity office.

Commodity Credit Corporation reserves the right to amend from time to time, any of its announcements. Such amendments shall be applicable to and be made a part of the sale contracts thereafter entered into.

CCC reserves the right to reject any or all offers placed with it for the purchase of commodities pursuant to such announcements.

CCC reserves the right to refuse to consider an offer, if CCC does not have adequate information of financial responsibility of the offerer to meet contract obligations of the type contemplated in this announcement. If a prospective offerer is in doubt as to whether CCC has adequate information with respect to his financial responsibility, he should either submit a financial statement to the office named in the invitation prior to making an offer, or communicate with such office to determine whether such a statement is desired in his case. When satisfactory financial responsibility has not been established, CCC reserves the right to consider an offer only upon submission by offerer of a certified or cashier's check, a bid bond, or other security, acceptable to CCC, assuring that if the offer is accepted, the offerer will comply with any provisions of the contract with respect to payment for the commodity and the furnishing of performance bond or other security acceptable to CCC.

Disposals and other handling of inventory items often result in small quantities at given locations or in qualities not up to specifications. These lots are offered by the appropriate ASCS office promptly upon appearance and therefore, generally, they do not appear in the Monthly Sales List.

Amendment to CCC Monthly Sales List for November 1969 Announced:

The U. S. Department of Agriculture today announced an amendment to the Commodity Credit Corporation monthly sales list for November 1969. The amendment eliminates soybeans and soybean meal from the list of commodities eligible under the CCC export credit sales program. The CCC sales list is issued monthly and lists the minimum prices at which CCC commodity holdings are available for sale. The November list was issued Oct. 31 (Press Release USDA 3360-69).

On sales for which the buyer is required to submit proof to CCC of exportation, the buyer shall be regularly engaged in the business of buying or selling commodities and for this purpose shall maintain a bona fide business office in the United States, its territories or possessions and have a person, principal or resident agent upon whom service of judicial process may be had.

Prospective buyers for export should note that generally, sales to United States Government agencies, with only minor exceptions, will constitute domestic unrestricted use of the commodity.

Commodity Credit Corporation reserves the right, before making any sales, to define or limit export areas.

Exports to certain countries are regulated by the U. S. Department of Commerce. These restrictions also apply to any commodities purchased from the Commodity Credit Corporation whether sold for restricted or unrestricted use. Countries and commodities are specifically listed in the U. S. Department of Export Control Regulations. Additional information is available from the Bureau of International Commerce or from the field offices of the Department of Commerce.
